

EXPERIENCE

- **Helvetia** Vienna, Austria
Product Owner - Data Architect and AI Integration April 2026 - Present
 - **Data Architecture:** Architected and optimized complex data models across Databricks and MS Fabric, integrating SAP enterprise systems for core insurance domains to improve query performance and scalability for claims and policy analytics.
 - **GenAI & ML Integration:** Piloted and integrated GenAI and ML models into the analytics ecosystem to drive high-value use cases in the insurance sector.
 - **Pipeline Automation:** Automated end-to-end Python data pipelines—from ingestion to monitoring—ensuring high data quality and stability for risk exposure reports.
 - **Executive BI:** Conceptualized, built, and operated high-performance Power BI dashboards leveraging MS Fabric and Databricks data layers, delivering actionable, real-time insights to key business stakeholders.
 - **Domain Ownership:** Held technical ownership of defined data domains, enforcing rigorous engineering standards including CI/CD, Data Contracts, and comprehensive testing.
- **AI Product Builder** Jan 2024 - Present
Creator & Developer
 - **AI Product Development:** Designed and shipped end-to-end AI data products, integrating Octoparse for automated, scalable web data extraction and Chat4Data for advanced conversational analytics.
 - **Data Monetization & Delivery:** Built data pipelines to process raw extracted web data, transforming it into user-ready AI solutions that generate actionable business insights.
 - **Organic Growth & SEO:** Spearheaded a technical content strategy by authoring SEO-optimized blogs for Chat4Data and Octoparse, effectively driving organic web traffic, expanding brand visibility, and accelerating customer acquisition.
- **NXP / TTTech Auto** Vienna, Austria
Product Owner - Data Science December 2024 - April 2026
 - **Merger Leadership:** Led a cross-functional team of 6 engineers and analysts through a corporate merger, defining integration strategies for hundreds of BI dashboards.
 - **Data Strategy:** Established data-driven workflows and advanced data modeling in the newly merged environment, ensuring seamless operations and 100% stakeholder alignment.
- *Data Scientist* May 2023 - April 2026
 - **ETL Optimization:** Engineered and scaled high-throughput pipelines reliably processing 1TB of automotive telemetry data daily.
 - **Performance Tuning:** Reduced ETL processing time by 60% by optimizing the data orchestration framework and migrating core data transformations from Pandas to Polars.
- **Shopreme** Graz, Austria
Data Scientist Nov 2020 - April 2023
 - **Recommender Engine:** Designed and deployed a custom Recommender Engine across 30+ retail stores, seamlessly handling a customer base of 150,000 per location.
 - **Revenue Impact:** Boosted retail sales by increasing cross-sell conversions by 12%, achieving and maintaining a 91% model accuracy for the in-store flow.
- **Google Developers Student Clubs** Graz, Austria
Community Lead | Mentor July 2021 - January 2024
 - **Community Building:** Led a community of 200+ students, organizing 20+ annual events including technical workshops and hackathons.
 - **Leadership Mentorship:** Ensured the long-term sustainability of the club by establishing a mentorship pipeline for the next generation of Community Leads.
- **Technical University of Graz** Graz, Austria
Teaching Assistant July 2019 - May 2023
 - **Technical Instruction:** Transferred practical knowledge to 600+ students by hosting lectures and live demos of modern Software Engineering, Algorithms, and Data Structures in Java and Python.

EDUCATION

- **University of Vienna** Vienna, Austria
PhD Degree Program Computer Science *April 2026 - April 2029*
 - Cyber security - Agentic Neurosymbolic AI for Causal Threat Detection, Provenance Reasoning, and Adaptive Cyber Defense
- **Technical University of Graz** Graz, Austria
Master's Degree Program Computer Science *Oct 2021 - April 2023*
 - Data Science major and Machine Learning minor. Master Thesis: Visual Food Characteristics That Influence Attractiveness.
- **Technical University of Graz** Graz, Austria
Bachelor's Degree Program Computer Science *Oct 2018 - Sept 2021*
 - Coursework including Software Engineering, Data Science, Computer Vision, and Web Programming.

SKILLS

- **Languages:** Python, Rust, SQL, PostgreSQL, MySQL, R, Java, C, C++, C#, MATLAB, JavaScript
- **Technologies:** Databricks, MS Fabric, SAP, Polars, Pandas, Spark, Deep Learning (YOLO, SAM, Object Detection, Image Segmentation), Frameworks (PyTorch, TensorFlow, ONNX), Tableau, Power BI, MLFlow, Snowflake, scikit-learn, LLM, RAG, MCP, Langchain, MLOps, OpenCV, Docker, Kubernetes, Cloud (AWS/Azure), Bazel, Airflow, Arrow, prefect, Spring, Django, QGIS, Selenium, Git, Jenkins, CI/CD
- **Other:** Project management, Scrum, Agile, Business Analytics, Product development, Software Engineering, DORA Metrics, Gen AI, AI Act

OPEN SOURCE CONTRIBUTIONS

- **MongoDB:** Contributing on GitHub open source code for official MongoDB integrations for Apache Arrow.
- **LineaPy:** Integrated multiple frameworks (Airflow, Argo, etc.) with the Linea team into their product pipeline. Worked with Kubernetes, Docker and CI/CD pipelines.
- **Articles:** Reaching hundreds of thousands of people per month on Medium along with the projects that are open-source to use for educational purposes.

AWARDS & PROJECTS

- **Nvidia developer collaboration:** Testing Nvidia hardware and software using modern technologies.
- **Statistics Without Borders (SWB):** Performed statistical analysis and data exploration using Python for Afrika Tikun, a South African nonprofit. Developed Jupyter Notebooks and comprehensive reports to evaluate youth empowerment outcomes and drive data-driven decision-making.
- **National Hackathon (2nd place):** Built a machine learning application using recommender systems to help students decide their study direction.

CERTIFICATES

- **Microsoft Azure AI Fundamentals AI-901:**
- **AWS Certified Generative AI Developer - Professional:**
- **Claude with Amazon Bedrock:**

LANGUAGES

- English (native), German (C1 / FPP), Serbian (native), Spanish (Intermediate)
